

Akhil T

3-year Experience Designer specializing in UI/UX. Highly proficient in Figma, Adobe Creative Suite, and Sketch, with a strong focus on user-centered design and a proven record of managing projects like the relaunch of a large mobile app.

PROFESSIONAL EXPERIENCE

UI/UX Designer

Hancod - Perithalmana | Jan 2024 - Present

- Revamped marketing webpages, webinar assets, datasheets, solution briefs, and presentation decks, elevating brand communication and user engagement.
- Gained exposure to implementation with front-end assets, complementing the desirable knowledge of HTML and CSS Basics. Product Designer (Meshilogic. Kinfra Pa

Product Designer

Meshilogic, - Kinfra Park | Aug 2022 - Dec 2023 (1 year and 4 mos)

- Worked closely with the team to enhance user experiences for complex products, successfully relaunching an educational mobile app with a large user base (one I personally used during college).
- Created UX flows and wireframes, conducted user studies, and built interfaces and prototypes, meeting project deadlines successfully.

PROJECT

Restaurant and Hotel Discovery App

Role: UI/UX Designer | Tech Stack: Figma, Adobe XD | Duration: Jan 2021 - Mar 2021

- The app helps users find the best restaurants and hotels based on their preferences. With filters for cuisine, location, price, and more, it makes discovering new spots easy and personalized.
- Users can also book reservations directly through the app, checking availability and viewing menus or hotel details. It tailors recommendations to past choices, making it a go-to for dining and accommodation needs.
